2024**

Registration is required!

Cancer Survivorship Starts at Diagnosis

Date: Wednesday, August 28, 2024

Time: 12:00 p.m. – 1:30 p.m.

Site: John A. DeQuattro Cancer Center

ECHN's John A. DeQuattro Cancer Center offers cancer patients a robust Survivorship Care Program; but what exactly is survivorship? Join Oncology Nurse Navigators Leslie Juliani and Karen Fiume and Social Worker Elizabeth Soucy to learn what survivorship is, how survivorship goes beyond one's cancer diagnosis and how is it personalized for each person.

Every year, we dedicate time and resources to enhance the overall health and wellness of our communities by offering FREE educational programs to individuals and families. We invite you to join us and our healthcare providers in one of our many health education lectures.
